

Please uphold wisconsin's Do Not Call List. If I ended my association with a business, why would I want them to call me up to 18 months later. I know who they are and what they do and if I am interested in renewing my association with them, I will contact them. My family time is limited and I like not having it interrupted with unwanted phone calls. Also, because of health conditions and work schedule I often nap during the day and if I only get an hour to catch a few zzz's, I do not want it interrupted unless it is important. Since I have children I need to be available to them so I cannot turn off my phone. Thank you.
